SUMMARY

Full-stack developer with experience building AI SaaS prototypes, backend APIs, and developer-focused dashboards. Skilled in React, TypeScript, Node.js, FastAPI, PostgreSQL, Supabase, Docker, and AWS. Interested in AI, NLP, LLM applications, and automation workflows.

SKILLS

Languages: Python, JavaScript, TypeScript, C++, SQL

Frontend: React, Next.js, Tailwind CSS, HTML, CSS

Backend: Node.js, FastAPI, Django, REST APIs

Database: PostgreSQL, MongoDB, Supabase

AI/ML: Machine Learning, Artificial Intelligence, NLP, LLMs, scikit-learn

DevOps/Cloud: Docker, Kubernetes, AWS, GCP

Tools: Git, GitHub, VS Code, Linux

PROJECTS

GigMatch AI

Built a gig discovery and matching prototype for tech freelancers and clients. Implemented React frontend pages, FastAPI backend routes, Supabase authentication, PostgreSQL tables, and deterministic skill extraction from resume and gig text.

ScholarAI

Built a scholarship discovery platform using SvelteKit, FastAPI, Supabase, and Gemini API. Implemented profile-based matching, saved scholarships, application tracking, and AI-assisted scholarship extraction.

Resume Parser Utility

Created a backend parsing utility that extracts skills from messy resume text using a curated taxonomy, alias mapping, and normalization rules. Added regression tests for React, Node.js, PostgreSQL, Docker, AI, NLP, and LLM aliases.

EXPERIENCE

AI Engineering Intern - DemoTech Labs

June 2025 - August 2025

- Built FastAPI endpoints for document processing and structured data extraction.
- Created React dashboards for reviewing extracted information.
- Used PostgreSQL and Supabase for authenticated data storage.
- Wrote tests for parser edge cases and API responses.

EDUCATION

B.E. Computer Science

Demo Institute of Technology

2022 - 2026
